Assignment-2077

(Ashad 21, 2077, Sunday)

Class: Seven Date:- \_\_\_\_\_ Name:- \_\_\_\_\_

Subject-Mathematics

1. Tell and write the answers as quickly as possible.

- a)  $\Sigma fx = 40, N = 5, \bar{x} = \dots\dots\dots$       b)  $\Sigma fx = 75, N = 15, \bar{x} = \dots\dots\dots$   
c)  $\Sigma fx = 110, N = 10, \bar{x} = \dots\dots\dots$       d)  $\Sigma fx = 200, N = 20, \bar{x} = \dots\dots\dots$   
e)  $\Sigma fx = 50, \bar{x} = 10, N = \dots\dots\dots$       f)  $\Sigma fx = 80, \bar{x} = 8, N = \dots\dots\dots$   
g)  $\Sigma fx = 100, \bar{x} = 5, N = \dots\dots\dots$       h)  $\Sigma fx = 400, \bar{x} = 16, N = \dots\dots\dots$

**Section B**

1. a) Find the mean marks from the given table.

Marks	10	20	30	40	50
No. of students	3	6	5	4	2

- a) Laxmi obtained an average marks of 70 in maths and English an average marks of 60 in maths and science. If she obtained 55 marks in English, find her marks in maths and science.  
b) The average age of Ram and Hari is 15 years and that Hari and Mohan is 14 years. If Ram is 17 years old, find the age of Hari and Mohan.

विषय - नेपाली

पुस्तकालय शीर्षकमा छोटो कुराकानी (संवाद) लेख।

Subject- English

1. Read the following passage and answer the following.

Long long ago, there was a gathering of some animals. There were fish, tiger, elephant, monkey, pig, and rhino. They had a bet. They said that there was a tree and the babies of all animals should have climbed the tree and return which returned first that would win the prize. All animals gathered and asked their babies to be ready for the bet. They asked their babies to win the prize anyhow.

The babies of all animals started to think. Baby of fish thought that he would die when he went to touch the tree because there was no water. The baby of elephant thought he could

not climb the tree. But the baby of monkey went to the tree, climbed the tree and returned fast. He won the prize. All mothers became sad and angry. They started to scold their babies. But the baby fish said to his mother that he would die without water and how he would do that. The baby elephant also reminded his mother how he would climb the tree. If he had to break the tree, he would win the prize. At last, mothers realized that everyone is not equal for all works. Everyone has different talent. He/she would do the best according to his/her natural capacity and interest.

**A. Match the following**

**Column A**

- a. Gathered
- b. A bet
- c. Realized
- d. Natural

**Column B**
