## Assignment-2077

(Ashwin 20, 2077, Tuesday)

**Class: Seven**

### **Subject- HPE**

**Answer the following questions:**

1. Write down the major parts of the skeletal system that we learnt from a video. Write down a note on them with their functions.

Example:

Clavicle:

Clavicle, also called Collarbone, curved anterior bone of the shoulder (pectoral) girdle in vertebrates; it functions as a strut to support the shoulder.

विषय - नेपाली

तार्किक उत्तर पूरा गर।

### **Subject- Science**

- Do numerical problem 1 and 2 from chapter pressure.

### **Subject- English**

**1. Read the following text and do the exercises.**

Parsa wildlife reserve was established in 1984 with an area of 49 sq. km. It occupies parts of Chitwan, Makwanpur, Parsa and Bara districts in central Nepal. The reserve headquarters is at Adhabar on the Hetauda Birgunj highway (20 km. south of Heutada and 20 km. north of Birgunj)

The reserve supports a good population of resident wild elephants, tigers, leopards, sloth bears, blue bulls and wild dogs. Other common animals are sambar, chital, hog deer, langur, striped hyena, palm civet, and jungle cat.

There are nearly 300 species of birds in the reserve. The Giant Hornbill is one of the endangered species to be found in certain forest patches. Peafowl, red jungle fowl, flycatchers and woodpeckers are a few of the other common birds found in the reserve.

The reserve is accessible by bus via the Kathmandu Birgunj highway or the Mahendra Rajmarg. The reserve headquarters is an 8- hour drive from only 15 minutes to reach Simara from Kathmandu by plane.

**A. Answer the following questions.**

- i. How big is Parsa wildlife reserve?
- ii. How many districts are partially occupied by the reserve?
- iii. Where is it's headquarter?
- iv. Name any two animals that are commonly found in Parsa wildlife reserve?

**B.State whether the following statements are true or false.**

- i. Parsa Wildlife reserve was established in late 80's.
- ii. The reserve's headquarter is at Janakpur.
- iii. The Giant Hornbill is found everywhere in the forest.
- iv. The reserve extends in more than one district.

**C. From the above passage, find the words which are similar in meaning to the following words.**

- |           |             |
|-----------|-------------|
| a. middle | c. through  |
| b. rare   | d. ordinary |

**The End.**
