Fig: Flag of Nepal

Every country has its own national flag. A national flag symbolizes a country. Our national flag is unique in the world. It has two triangles joining together. The blue border in the National Flag of Nepal is the symbol of peace. The red is the color of the Rhododendron- Nepal's National flower. The crescent moon represents the Royal House, and the Sun is the symbol of the Rana family of Nepal. The meaning of sun and moon is that Nepal will exist until the sun and moon remain in the universe. Similarly, the sun represents the fierce tenacity of the Nepalese people and the heat of the lower parts of Nepal. The moon represents the serenity of the Nepalese people and the shade and cool weather in the Himalayas. Our national flag reflects our history, culture, and religion.
