Assignment-2077

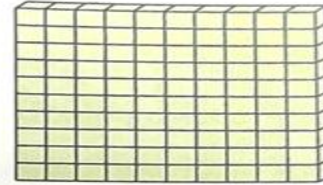

(Ashad 30, 2077, Tuesday)

Class: Three Date:- _____ Name:- _____

Subject- Mathematics

Hundredths

There are 100 small equal cubical blocks in the whole block. Each small block is **one-hundredth** ($\frac{1}{100}$) of the whole block. Two small blocks are **two-hundredths** ($\frac{2}{100}$) of the whole block.

It is one-hundredth = $\frac{1}{100}$ of the whole block.

We write $\frac{1}{100}$ as **0.01** and read as 'zero point zero one'.

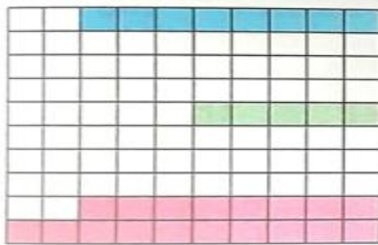

There are two-hundredths = $\frac{2}{100}$ of the whole block.

We write $\frac{2}{100}$ as **0.02** and read as 'zero point zero two'.

Classwork - Exercise

1. In these whole square shapes, there are 100 small square rooms. Let's tell and write the fractions and decimals of the shaded rooms.

Fraction of blue shade _____

Decimal of blue shade _____

Fraction of green shade _____

Decimal of green shade _____

Fraction of pink shade _____

Decimal of pink shade _____

Subject- Extra Reading

Prepare story with moral for upcoming class.

Subject-Computer

REVIEW

- A keyboard is the main input device of a computer. It has alphabet keys, number keys, navigation keys and other keys.
- Some keys on the keyboard have two characters on them.
- You can enter texts, numbers and other characters using the keys on the keyboard.
- The keys on the middle row of the keyboard are known as Home keys or Resting keys.
- A computer mouse is also input device and is also known as pointing device.
- A computer mouse is used to select commands, files or folders.
- You can also draw lines, curves and freehand shapes in graphic programs using the mouse.

Pilots

A pilot is a trained person who can fly a plane. Pilots go through a lot of training before they can fly a plane. They work in the front of their airplane. This is called the cockpit. There are all different types of airplanes. Some are private jets. Some are huge airplanes that can carry hundreds of people. No matter what, pilots have to have a lot of training to control an aircraft.

1. What type of things can be found in a cockpit?

2. Did you learn this from the text or the photograph?

3. What is required before a pilot can control an airplane?

The End.
