My sister said, "Pounce for the puppy and Cuddles for the kitten."

We all thought those names were perfect.

### How Beautiful is My Place

Aah! How beautiful is my village! There is jungle nearby. Fresh air blows to make our environment enjoyable. The herbs found in the jungle have properties of medicine. It offers us grass and firewood too. A stream flows down my village. We embank it to carry the water into the farm from a canal. There is reserve of minerals in the mountains near the village. There are many lime stones. We can process it to make cement of it. We cannot explain the beauty of the mountains with rhododendron. We have to preserve all these forests, ponds, streams and mountains. We should love such places with plenty of natural resources. I live here. I enjoy it all. I can lend a hand to the development of the place. This is my duty as a local of this area.

My town is very beautiful. The roads are wide and clean. The market is everywhere. The factory makes medicine from the herbs from the village. The hospital gives good service to the people. There are old historical palaces such as, temples, mosques and chaityas. They are full of arts. Tourists enjoy them. In the sides of the roads, there are gardens. There is greenery either side of the road. Light has reached every house. At night, the whole area glow with light. How beautiful is my town! I love it very much. I lend a hand to keep it clean.
