### Subject – Science

1. Name any five hard substances.
2. Name any five soft substances.

### Subject- Social Studies

#### **Our Living Place**

Gokul lives in town. It is in the Terai. Terai is plain land. In plain, no one needs to walk up. It is easy to walk and construct roads in such places. Many people live in such places. Ganga lives in a village. Her village is in the mountain. It is high-land. There is also a low land in the mountain. The low land is called *Bensi* (low-land). Deep places are also found in the mountains. Such deep places are called *khonch* (ravine). It is difficult to make road in mountains. There are *Tars* (elevated plain land) in some *Bensi*. It is also known as high land areas. Tar is plain land in height.

#### **EXERCISE**

**1. Answer the following questions.**

- (a) Where does Gokul live?
- (b) Where does Ganga live, in town or in a village?
- (c) Where do you live, in village or in a town?
- (d) What kind of place is called Tar?
- (e) What kind of place is called Bensi?

**The End.**
