Your Destination for 21st Century Skills

Riviera International Academy is a leading educational institution established with the vision of transforming the students into competent professionals of the 21st century. It is located at Maijubahal, Chabahil, Kathmandu opposite the Hyatt Regency's main gate. With a commitment of imparting professional education to the students to address the 21st century challenges, Riviera has been running 10+2 Program in Science, Management, Humanities and Law with an exclusive vision and goal-oriented mission.

Riviera aims to develop the confident and resourceful individuals who lead satisfying and productive lives while contributing to their society, their country and their world. It creates an atmosphere that ensures knowing every student's level of intelligence and enhances students' ability to learn and encourages them to grow and lead.

Riviera ensures the students' cultural, social, psychological and spiritual growth for their overall personality development that makes them capable and responsible citizens. As such, Riviera has diverse package of educational resources and programs with sound professionals.

Vision

Transforming the Students into
Competent Professionals of the 21st Century

Mission

Instilling in the students academic knowledge,
professional skills and leadership quality

From the Desk of the Chairperson

In pursuit of academic excellence, our +2 Program is a tool that confers the life skills, professional expertise and leadership abilities to the students and makes them competent enough in 21st century global scenario. **Riviera** is enriched by highly qualified and experienced professional faculties anxious to transform the intended knowledge into skills very precisely applying modern advanced methodologies in teaching-learning process. **Riviera** has an academic platform that creates a favorable atmosphere for the enhancement of every student's intellect level and their learning ability. In fact, **Riviera** ensures the delivery of demanding academic professionals to the nation.

Narendra Bhattarai

From the Principal's Pen

We are in the 21st century world. Students today come across myriads of challenges brought forth by modern advancement of this era. In due process of overcoming these challenges, they aspire to develop new skills necessary enough for their professional growth. Only subject knowledge doesn't fulfill their objective. They are required to possess 21st century intelligence which creates new identity for them. Their competence and expertise built up in this highly competitive world facilitate them to be salable in the global market successfully. In fact, **Riviera** has a clear vision and strong commitment for helping the students reach this destination. Running 10+2 Program is a significant step in this direction. In order to achieve this goal, in addition to curriculum based regular classes, we have managed additional professional classes, career counseling classes and the classes on the 21st Century Skills.

Facilitating Learning

Laboratories:

Riviera has well-equipped laboratories where students perform a wide range of complex experiments and acquire the skills necessary to conduct modern research in a safe and progressive scientific environment in the course of their studies in biology, chemistry and physics. Each laboratory is specially designed to satisfy the needs of different learners.

Facilitating Learning

Library: Riviera has a spacious and resourceful library with a large number of books of multiple disciplines. Along with main course books, varied reference books can be accessed here. It has been developed as a mini-research lab as well.

Smart Class: Riviera has also introduced smart class to Class XI and XII students. They get an opportunity to learn the course contents through interactive smart board. Digital classes for all the subjects have been made compulsory.

E-Library: The 21st century students would not be able to compete in the global market until they achieve 21st century learning outcomes. For this, they need to be the global readers. To fulfill this objective, Riviera has the facility of e-library too.

Research Based Learning

Riviera focuses on the participation of the students in research-based project works, educational field trips and self-learning activities. They can develop intellectual skills of critical analysis and also valuable transferable skills.
