Occupational Tools
Farming is our occupation. So, we love working in the field. We take care of the tools weneed.They are plough and yoke. They are made of local materials. We keep them safe in an easy to find place.
Parents, brother and sister, find us spade. It is our share of work to break the balls of earth, dig and spray seeds. Grains like paddy, maize, wheat and millet will grow. We will sell the surplus

grains weighed on a balance. It is fun to work in field in harvest time. It is more fun where sack full of grain comes home.

I go to jungle with a *Doko*, a *Namlo* (rope) and a sickle. I am happy to graze animals and cut grass for them. We should learn how we can benefit from animals. They give us milk, curd, ghee, dung, etc. We can process the curd to get butter. We can earn money from the sale of milk products. Santa Dai living next to us builds houses. He uses tools, bell, shovel (made of iron) and a *Doko*. Som Bahadur is a doctor and serves the whole village. He makes use of tools such as thermometer, bandage, stethescope and scissors. He comes at call to see patients at home. He checks them and gives medicines too.

Table, chairs, cot and cupboard are made of timber. A person who makes furniture is called a carpenter. Carpenters use tools such as saw, hammer, anvil measuring tape etc. What a skill. They fell a free, and saw it into planks. They join the wood to make a chair, table bench etc.

- Draw a picture of the following tools:
